PRESIDENT PREAMBLE

Well its hard to believe that we've had Easter already this year, and we are coming up to Anzac Day and another round of public holidays on our way.

We have our AGM at the next meeting 19 April and shortly after that will be the Jurisdiction IV convention and AGM in beautiful Hobart Tasmania.

As I'll be standing down as president this year I'd like to take this opportunity to thank my committee and all the members for your support over the last three years, and I take the opportunity of welcoming the incoming president and pledge my support and yours to them as well.

Health Happiness and Long Life.

Foaming shaving cream will get rid of red wine stains – especially on carpets.

When making toasties use mayonnaise instead of butter on outside of sandwich for a tasty alternative.

A new material of iodine, lead and methyl-ammonium promises to double the efficiency of silica solar cells (with a longer life).

Our 9 Points

EDITORIAL - "Be Progressive"

Be Progressive – An interesting ideal and aspiration for members of Hoo Hoo as the notion is generally identified with politics and generally the policies of the left.

"Progressives" believe that the country should be one of unlimited opportunity where all people can better themselves through education, hard work, fair pay and the freedom to pursue their dreams, where an open and effective government champions the common good over self interest while securing the rights and safety of it's people.

This would hardly be where much of the politics in the world would appear to be heading – and while democracy is an ideal to be defended at all costs where the implementation of such ideals is undertaken without the pragmatism of ensuring an improvement in the groceries for the people sustaining the economy and the groceries of their children and we have an unsustainable system. (and statistics paint this picture for many of the developed countries of the world!)
